

OZARKS JEEPTHING

November 2021

PICTURE POKER RUN CHALLENGE

Over the course of the next 5 months, we will be showing you a picture in our newsletter of a local iconic structure/sign/landmark/etc.

Here are the rules:

- 1) Monthly newsletter will show you a picture to go visit within that month*
- 2) When you visit the site, make sure to snap a picture of your Jeep with the featured icon (if possible). Make sure to include the DATE in the picture. (No cheating by using previous photos, for those of you who may have already visited the location)*
- 3) After you submit your photo, you will get ONE playing card. If you complete the challenge each month, you will end up with a 5 Card Poker Hand!*
- 4) At the end of our challenge, if you have the best hand, you will win A PRIZE!!*

*Here is your first picture!
Get out there, explore the Ozarks, and
don't forget to submit your photo!*

GOOD LUCK!

How low can you go?

November... the time of year when the temperatures outside can become quite brisk, which means our Jeep tops & doors will get put back on, signaling the end of the season. (insert tears here)

HOWEVER, if you are like me, I dread that day! The thought of being enclosed has me feeling like Mr. Incredible in his tiny car. This leads me

to my question to the group: “How low can you go!??”

Do you put everything back on once the temperatures get down

to 60? Or how about 50? Can you go to 40 degrees without

the top & doors on? LOWER!?? I would love to hear from you! For me, personally, I can only go to around 40 in the morning as long as the HIGH for the day will get to at least 60-65, or higher. There’s nothing better than leaving work on a nice fall day knowing that you’ll have the sun on your face and the wind in your hair!
